Seating is limited. **Contact:** Gail Schatz at 714-509-2110; or
Friends-of-Neuro@uci.edu

Guest Speaker:

Robert C. Griggs, MD, FAAN
University of Rochester

Dr. Robert Griggs is Professor of Neurology, Medicine, Pathology and Laboratory Medicine, Pediatrics and the Center for Health and Technology at the University of Rochester School of Medicine and Dentistry. He has directed an NIH-funded training program in the Experimental Therapeutics of Neurological Disease since 1989.

Dr. Griggs received his MD from University of Pennsylvania, and trained in Internal Medicine at Case Western Reserve University and University of Rochester. During his residency at Case Western, he worked with Dr. Stanley van den Noort and Dr. Michael Swash who encouraged him to pursue a career in Neurology.

The annual [Stanley van den Noort Lecture](#) was established in 2011 to honor the memory of Stanley van den Noort, MD, a pioneer in neurological education, research and patient care, and an influential dean of the UC Irvine School of Medicine.
