

You're invited to the

UC Irvine Health

Department of Neurology

7th Annual Arnold Starr Lecture

Humanistic Neurology and the Science of Music

GUEST SPEAKER:

MARIA DONATELLA CARAMIA, MD

Thursday, Oct. 26, 2017

Reception & Lecture: 5:30-7:30 p.m.

The Beckman Center - 100 Academy Way, Irvine, CA

Maria Donatella Caramia, MD, is a professor of Neurology at the University of Rome Tor Vergata, and of Clinical Neuromusicology and New Music Languages at the Conservatory of Salerno. Her research explores emotional intelligence, neurocognition and music within a framework she named "Humanistic Neurology." A pioneer in transcranial magnetic stimulation, Prof. Caramia has contributed to the understanding of brain plasticity and cortical excitability, and pathological and adaptive changes during recovery in neurological disorders.

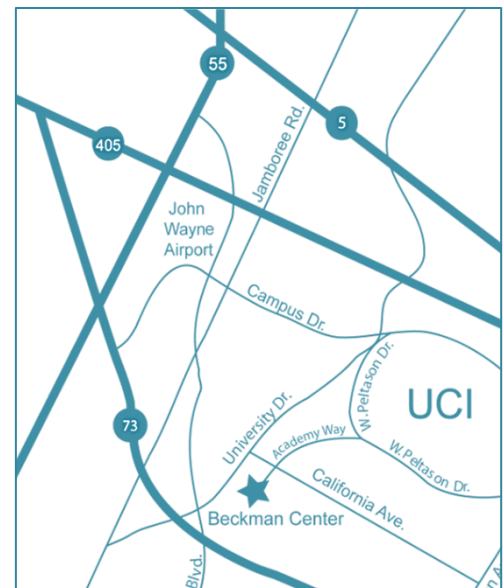

As an accomplished composer and musician, Prof. Caramia produced a CD and performed her own chamber music for the launch of *Education for Peace* in 2009. In 2012, she published a book exploring the relationships between neuroscience and music with Ennio Morricone – Oscar-winning composer of Tarantino's "The Hateful Eight," *La Musica e oltre. Colloqui con Ennio Morricone* (Morcelliana Press).

Join us for this special public lecture and reception.
Free self-parking at The Beckman Center.

RSVP by Monday, Oct. 23rd

About the Arnold Starr Lecture

The Annual Arnold Starr Lecture was established in 2010 to honor the founding chair of the UC Irvine Department of Neurology. Dr. Starr joined UC Irvine Health in 1970 at the invitation of Dr. Stanley van den Noort, Dean of the School of Medicine.

In 1977, Dr. Starr received approval from the Regents of the University of California to make Neurology a full-fledged academic department, and was its first chair until 1987, growing and shaping it into a national and internationally-recognized research and clinical department.

Endowment for the Arnold Starr *Distinguished* Lecture

On its 40th Anniversary, the Dept. of Neurology will create an **Endowment for the Arnold Starr Lecture** with the help of your donations, so the distinguished lectureship may continue in perpetuity.

For information on how you can contribute to the Starr Lecture Endowment, please contact:

Nancy M. Young

Director of Development

"Cerebellum Purkinje Cell"
(Watercolor on paper) by Arne Starr

Neuralscapes Exhibition

Oct. 16 to Nov. 2, 2017- 9 a.m. - 5 p.m.
Viewpoint Gallery, UCI Student Center

Dr. Arnold Starr is also a talented watercolorist. His neuroanatomy-inspired drawings have been presented at the invitation of his global colleagues. In conjunction with the Starr Lecture, an exhibition of *Neuralscapes* will be hosted at Viewpoint Gallery. *No reservation required.* We invite you to attend the special viewing on October 26th prior to attending the Reception & Lecture at The Beckman Center.

Join Friends of Neurology

UC Irvine Health – Department of Neurology offers comprehensive, compassionate, world-class care through our team of neurologists specializing in research and treatment of all nervous system disorders and conditions. Your gifts help us explore the boundaries of science and medicine to find the cures and therapies that make a real difference in lives.

Please join **Friends of Neurology** by donating online at www.connect.uci.edu/neurology.
